#### **DETAILED ACTION**

##### ***Applicant's Response***

Acknowledged is the applicant's after-final amendment filed November 3, 2010. Claims 1, 29-30, and 35 are amended; claims 28 and 37-39 are canceled. The amendments overcome all rejections and place the application in condition for allowance.

##### ***Allowable Subject Matter***

Claims 1-7 and 29-36 are allowable.

Independent claims 1 and 35 recite a conveying arm which engages a first tray portion to translate the tray partway to the second vacuum chamber, the release of the conveying arm from the first portion, the subsequent engagement of the arm with a second portion, and finally the translation of the tray fully into the second vacuum chamber. The teachings of Toshifumi, Iwasaki, and Hassan represent the closest prior art, but none disclose a tray formed with multiple engagement portions to facilitate piecemeal substrate translation. Although Toshifumi's conveying arm is capable of translating a tray, the arm is configured such that it engages every engagement part simultaneously -- that is, the arm is not capable of engaging only a first engagement part to move the tray a certain distance and then engaging only a second engagement part to move the tray the remaining distance. As there is no description in the prior art of such an embodiment, it is the examiner's opinion that the effort necessary to modify the cited references to arrive at the applicant's invention is beyond that of ordinary skill. Claims 1-7 and 29-36 are allowable for these reasons.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Nathan K. Ford whose telephone number is 571 270 1880. The examiner can normally be reached on M-F, 8:30-5:00 EDT. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Michael Cleveland, can be reached at 571 272 1418.
